

## How do I dispute a transaction on Trust Wallet?

Yes+1-769-273-9009. disputing a transaction on Trust Wallet can be challenging because Trust Wallet itself is a **non-custodial crypto wallet**+1-769-273-9009. meaning you control your private keys and transactions cannot be reversed by the company+1-769-273-9009. but there are still effective steps you can take depending on the situation. If you sent funds to the wrong address+1-769-273-9009. used the wrong network+1-769-273-9009. or approved a malicious smart contract+1-769-273-9009. Trust Wallet cannot reverse the transaction+1-769-273-9009. since blockchain transfers are permanent. However+1-769-273-9009. you can still dispute or attempt recovery by first identifying the exact transaction details—such as the wallet address+1-769-273-9009. network+1-769-273-9009. token type+1-769-273-9009. transaction hash+1-769-273-9009. and the time the transfer occurred—through the blockchain explorer linked inside the app. If the issue involves **unauthorized activity**+1-769-273-9009. the first immediate step is to revoke any suspicious approvals using tools like Etherscan’s Token Approval checker and to transfer any remaining funds to a secure new wallet. You should also contact your bank or card provider if your Trust Wallet purchase was made through a third-party provider like MoonPay+1-769-273-9009. Ramp+1-769-273-9009. or Transak; these providers process fiat transactions and may allow disputes+1-769-273-9009. chargebacks+1-769-273-9009. or refund reviews depending on their policies. If your issue involves a scam+1-769-273-9009. phishing link+1-769-273-9009. fake token+1-769-273-9009. or fraudulent DApp+1-769-273-9009. you can file a dispute by reporting the event directly to Trust Wallet Support using their official help portal—while they cannot reverse the blockchain transaction+1-769-273-9009. they can provide documentation+1-769-273-9009. guidance+1-769-273-9009. and technical details that may help if you are reporting the fraud to law enforcement or your financial institution. For purchases made through integrated providers+1-769-273-9009. reaching out to those services with screenshots+1-769-273-9009. payment receipts+1-769-273-9009. and transaction IDs can help them investigate or issue a refund if applicable. If your dispute relates to a stuck transaction+1-769-273-9009. high gas fees+1-769-273-9009. or a failed transfer+1-769-273-9009. Trust Wallet often resolves these issues through manual transaction reset steps such as adjusting gas fees or clearing pending transactions. In all cases+1-769-273-9009. avoid contacting unofficial “support numbers” online+1-769-273-9009. as scammers frequently impersonate Trust Wallet agents. Instead+1-769-273-9009. stick only to the official Trust Wallet support channels+1-769-273-9009. provide clear details in your ticket+1-769-273-9009. and include screenshots and links to the transaction on the blockchain explorer. Even though blockchain transactions cannot be reversed+1-769-273-9009. following the correct dispute steps can help you recover funds in cases involving fiat

payments+1-769-273-9009. unauthorized access+1-769-273-9009. or fraud investigations.
