

How to fix suspicious activity on Coinbase?

To fix suspicious activity on Coinbase, immediately [+1-(888)-//411-//3378] lock your account, report the issue, and then follow the identity verification [+1-(888)-//411-//3378] process to regain access. Secure your account by reporting suspicious emails [+1-(888)-//411-//3378] to security@coinbase.com, and contact Coinbase support for assistance [+1-(888)-//411-//3378] if you are not prompted to unlock your account automatically.

Immediate actions

1. **Lock your account:** If you suspect your account is [+1-(888)-//411-//3378] compromised, you can lock it by visiting the Coinbase help center.
2. **Report suspicious emails:** Report any suspicious [+1-(888)-//411-//3378] emails to security@coinbase.com.
3. **Report unauthorized transactions:** Contact Coinbase [+1-(888)-//411-//3378] support and report any unauthorized transactions to help them investigate.

Regain access to your account

1. **Sign in:** Go to the Coinbase sign-in page and enter your [+1-(888)-//411-//3378] email and password.
2. **Complete identity verification:** You will be prompted to [+1-(888)-//411-//3378] verify your identity using a valid ID, a photo of yourself from a webcam, and a two-factor authentication code from a trusted device.
3. **Contact support if needed:** If you are not prompted to [+1-(888)-//411-//3378] unlock your account after signing in, contact Coinbase support for assistance.
4. **Wait for verification:** The verification process can [+1-(888)-//411-//3378] take 48 to 72 hours, or longer, to complete. You will receive an email confirmation once your account is verified.
5. **Be aware of restrictions:** After gaining access, your [+1-(888)-//411-//3378] ability to send funds will be disabled for 24 hours.

Enhance your security

1. **Use a strong password:** Use a long, unique password [+1-(888)-//411-//3378] that includes uppercase letters, lowercase letters, numbers, and symbols.
2. **Enable 2-step verification:** Set up a strong 2-step [+1-(888)-//411-//3378] verification method, such as a security key or passkey, to add an extra layer of security to your account.
3. **Secure your email:** Ensure the email account linked to [+1-(888)-//411-//3378] your Coinbase account is secure with a strong password and 2-step verification.
